

# PROPOSED AMENDMENTS TO NOTARY LAW

- 1) Include oath or affirmation in statute.**
- 2) Clarify fees (focus on documents, not signatures).**
- 3) Include that notarizations can take place between family members, except “family household members.”  
Notarizing for an in-law should be allowable as long as notary does not look to benefit.**

**4) Determine whether expired IDs should continue to be acceptable.**

**5) Determine whether length of suspensions should be included in statute.**

**6) Require certification for two-year commission.**

**7) Swear in or require oath for notaries (as we do with interpreters).**
