Our Office Budget

The Office of the Attorney General, like other government of Guam agencies, faced many financial difficulties and unanticipated costs for its operations during Fiscal Year 2010. The Office has, however, as in previous years managed to both operate and stay within the fiscal year budget. The Office has instituted and improved the financial oversight of all the operations and related costs and expenditures of its various divisions. This has included providing timely financial information which is available to the public for review on its website at www.guamattorneygeneral.com. The Office has also implemented and enforced cost-cutting measures throughout its operations. Nonetheless, the Office continued to seek alternative sources of funding other than local general fund monies for the recruitment and hiring of much needed attorneys and support staff to meet the high caseload numbers and growing demands for legal services for the various government of Guam agencies.

Future Outlook

Safeguarding Guam's people and its visitors continues to be the highest priority here at the Office of the Attorney General. We continue to work with local, federal and state law enforcement agencies to tirelessly fight crime and keep our community safe. Public safety initiatives we look forward to pursuing further include increasing the efficiency and effectiveness of prosecuting driving under the influence of alcohol and controlled substances cases, drug trafficking cases, domestic or family violence cases and property crime cases.

Unfortunate as it is, crimes such as human trafficking and identity theft have reached our island. We intend on expanding our efforts to prosecute those who have committed these crimes, but also to vigorously prosecute crimes against our children whether it be physically or online. Combating cyber crimes including cyber bullying are additional initiatives that our Office will pursue in collaboration with government law enforcement agencies.

The Office readies itself for increased caseloads in all divisions and remains steadfast in hiring and providing more training to our lawyers, prosecutors, investigators and support staff like secretaries and paralegals.

With unpredictable economic times ahead of us, the Office remains dedicated to creatively utilizing the resources that have been allocated to improve our presence in serving the community. This will include our continued fight against public corruption and our increased efforts to enforce compliance of the laws and regulations of the government of Guam.

Accountability is required at all levels of this Office, ensuring that our efforts and work are conducted ethically and professionally on behalf of the citizens and residents of Guam. There will continue to be strength, honor and integrity in the activities of the Office of the Attorney General on behalf of the People of Guam.
